Why choose Nylus?

Nylus is a company focused on providing innovative and reliable solutions for customers in need of managing their field operations. We all know how frustrating it can be to not have the most up-to-date knowledge or resources on hand when a job arises; that's why we can offer an industry-specific solution at an affordable price.

SOLUTIONS

MOBILE ACCESS

NYLUS is both Android and iOS compatible and works on almost all devices. Allow your field crew to see their jobs, work tickets, safety forms/ orientation tickets, timesheets and documents, making field to office a seamless. All real time communication with offline capabilities

INVOICING

Sync your customer pricebooks with field tickets for seamless service pricing! Automate customer rates on electronic work tickets, effortlessly track field work hours, materials, and dumpsite expenses. Say goodbye to billing errors and cut down on office admin time!

DISPATCHING

PROJECT/ DAILY JOB DISPATCHING

Say goodbye to manual scheduling, work tickets and safety forms. NYLUS's intuitive unit dispatching & scheduling dashboard allows you to effortlessly assign jobs to units, view maps & quickly add locations and site contacts in real-time while utilizing fleet usage effectively. Copy jobs over multiple days and reassign unit jobs easily to another unit or multiple crews. Dispatch via text or email and chat live with field people using our software in-app messenger.

CUSTOM FORMS

WORK TICKETS

Companies can custom design their own electronic work ticket to fit all the necessary information they need. Using our NYLUS form builder our customers will be guaranteed to have the applicable work ticket they need.

SAFETY FORMS

NYLUS allows you to keep track of mandatory electronic safety tickets like FLRA, Haulage/Dumpsite forms, post/pre job inspection forms and DVIRs with each job on-site anytime or offline all custom to fit.

SUPPLEMENTARY FORMS

Sometimes you need an extra form for your jobs. This module is excellent for those seeking to gather additional information.

VACUUM, FLUID HAULING, CIVIL CONSTRUCTION SERVICE & HEAVY EQUIPMENT SOLUTIONS

ALL-IN ONE SOFTWARE AND MOBILE OFFLINE APP

1 CUSTOMER PRICEBOOKS

No longer will you need to search through paper price books for customer service rates. You can now utilize custom pricing for all your services and have them calculate automatically on the job ticket. This automated pricing can be tailored to each customer, job, or project.

2 CUSTOM WORK TICKETS

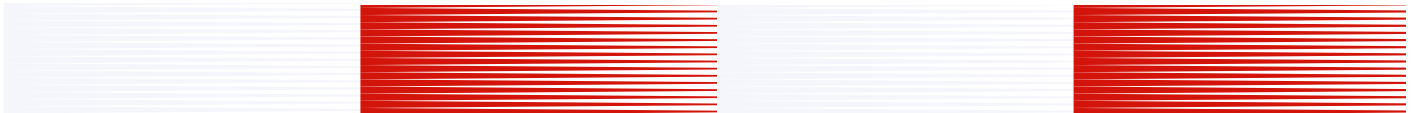

Build your own work ticket out of NYLUS using our custom form builder. Never settle for an out of the box design. Our team will create and design your electronic form using our industry knowledge for both dispatching and truck maintenance.

3 TRUCK MAINTENANCE

Use truck check forms submitted in the field to create real time notifications and maintenance pooled jobs. Have your in house mechanic create maintenance work orders and assign people and priorities.

4 SERVICE TIMESHEETS

Each company is unique to how they track time. Run service timesheet reports in NYLUS and save hrs. during payroll periods. Use our payroll rules to customize how you capture hours of your employees.

VACUUM, FLUID HAULING, CIVIL CONSTRUCTION SERVICE & HEAVY EQUIPMENT SOLUTIONS

ALL-IN ONE SOFTWARE AND MOBILE OFFLINE APP

5 REMOTE SIGNOFF

Missed a signature on an electronic work ticket or safety form? No problem. See all your missed field signatures on our specialized sign-off dashboard. Send a link to any customer who missed a sign off for them to complete on their tablet.

6 SAFETY MANAGEMENT

Attach safety certifications to each resource profile to present electronically on site. Dispatch jobs using site specific or customer specific orientations. Track mandatory FLRAs or Unit Inspection forms before each job and submitted with a geo-location.

7 DOCUMENT MANAGEMENT

Document management allows for efficient storage, retrieval, and control of information. It ensures that all documents related to the job site, such as contracts, safety requirements, and customer information, are easily available to the applicable person.

8 CUSTOM ACCESS ROLES

Customize the system roles so users can have specific read/ read write access to the necessary screens they need. Hide customer pricing in the field on the electronic work tickets; Allow dispatch all the necessary access or restrict certain access to the system.

ALL-IN ONE SOFTWARE AND
MOBILE OFFLINE APP

9 GPS & TRUCK REPORTS

Track and monitor your fleet in real-time. Use our commercial heavy and or lite duty unit plug-in devices to track routing, PTO, speed and more. Always know where your entire fleet is.

10 MOBILE PUNCH CLOCKS

Our mobile app allows employees to punch in and out in real-time for work, lunch, and travel time, making it easy to track employee hours. With our punch clock dashboard and reports, you can easily see which employees are clocked in and out accurately.

11 PAYROLL REPORTING

This will allow you to easily export information to other accounting systems and accurately track and report employee wages. Combine these reports with the punch-clock module or service timesheets.

12 INVOICING

NYLUS allows users to conveniently send multiple documents to customers, such as work tickets, pictures, safety forms, and job files, all in a single invoice. This makes it easy for customers to receive and access all pertinent information at once.

13 NOTIFICATIONS

Easily set up work flow triggers and notifications using our work flow rules. From truck maintenance to accident report submission to expired resource training, our software can handle it all. NYLUS offers the ability to create work flow triggers and notifications with ease.

14 INVENTORY

Stay on top of your inventory by utilizing the cost plus pricing method for customers on work orders. Let operators or technicians add materials to field tickets. Additionally, make use of the warehousing feature to keep inventory separated in multiple locations.

15 SALES ORDERS

You can easily integrate your sales orders with NYLUS or create a sales order directly in the system. This allows you to connect any sales order to a specific project or job via our system or on the mobile app.

16 SUPPLEMENTARY FORMS

This module can be used to generate various types of forms that are not safety or work tickets. Customize and create unlimited electronic forms to be used on jobs or ad-hoc on the mobile app.
